

To the Select Men of Boscaawen

We the under signed being inhabitants of said Boscaawen, are conscious that the Laws relative to Taverners and retailers have not been ^{duly} observed, but in many instances violated and broken, we fear that many of our young men are forming bad habits, wasting their time and spending their money and perhaps destroying their Souls; and it is evident that some families suffer in consequence of these evils which prevail among us. We therefore think it our incumbent duty to notify you of the danger of granting Licences to those who keep disorderly houses, to prevent which we request you not to grant Licences for Taverner or retailer to any person excepting those who have good accommodations for a Tavern and keep orderly houses agreeable to the Laws of the State of New Hampshire
